GOLDEN WARRIOR

A black and white graphic design featuring a large, stylized number '2000' composed of the word 'two thousand' repeated in a circular pattern. The design is arranged in a circle, with the word 'two thousand' repeated numerous times in a smaller font, creating a dense, textured appearance. The number '2' is positioned at the top left, '0' at the bottom, '0' at the bottom right, and '0' at the top right, all in a large, bold, black font.

CC Wow!! What a great season!! We experienced several changes and overcame a lot of adversity. The girls' stayed focused and determined to make the playoffs. A second place finish in district and playing Commerce in Bi-district was a great finale to a rememberable season. I thoroughly enjoyed coaching this team. I look forward to seeing great things from the returning players next year.

The Sanger Indian football team faced a big rebuilding job in 1999. With three returning starters on defense and more on offense, the Indians were picked to finish towards the bottom of district 9-3A. The men on the 99 Indian team did not want to be the team that broke the string of playoff appearances by Sanger High and came together, and with great determination and character ended the 99 season as Dist. 9-3A Co-Champions. The coaching staff is very proud of the way these young men played when very few believed they could do it. They will always be special to us.

The Sanger Indians played against the Commerce Leopards, on Friday November 12; for a Bi-District Championship. They played in Rockwall at 7:00 p.m. The guys played a very difficult game and the coaches gave their all to guide the team to a win. Unfortunately, the Leopards had an outstanding defense and although, we won the second half, we lost the game 38 to 9.

The Freshman football team excelled in team work this year, as a fan, there were a lot of moments where we did not think the boys would make it. They pulled together to discover that they all wanted the same goal, that was, to win District. We look forward to the next three years and hope they achieve more.

Wow!! What a Great Season!! I have really enjoyed coaching this bunch of young ladies. As the season progressed we became a very close group.
-Coach Taylor-

Kyla drives by two defenders.

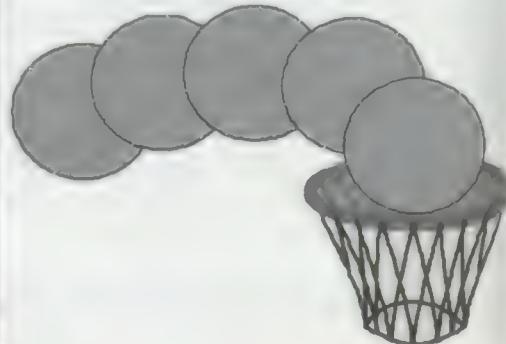

Meredith plays tough defense.

Jennifer plays defense while the opponent tries to make a pass.

Kristy blocks out hard and fights for rebounding position with a Bowie player.

Rachel looks for an open teammate to pass to.

Left: Britton tries to get open while Celina plays tough defense.

Right: Jessica looks up for the ball as she is rebounding.

Molly shoots for three

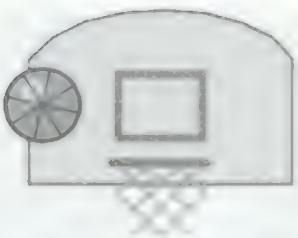

Lindsay drives past two Bridgeport opponents.

1000 Pilgrimages to religious sites are seen as acts of faith. Roads and towns develop along the pilgrim routes, expanding trade and communication in Europe. Beginning in 1096, Crusades to the distant Holy Land expose Europeans to Arab culture.

1519 Thinking he has pioneered a westward route to the spice-rich East Indies, Christopher Columbus lands in the Bahamas. At the time of first European contact, about 90 million Native Americans live in North and South America.

1600 Stagecoaches offer public passenger service, and covering 15 miles a day is considered a good speed. The coaches travel in stages, changing horses at each stop. As a result, the stagecoach line is born.

1519 Spanish explorer Hernando Cortés introduces horses from Spain into the New World, changing transportation and culture for Native Americans. Cortés carries out a harsh conquest of Montezuma and the Aztecs.

1000 Leif Ericson reaches North America.	1110 Chinese invent magnetic compass.	1271 Marco Polo travels to China.	1304 Mercator creates his world map.	1750 First canals in Europe open.	1763 Turnpikes in America are built.	1770 Transcontinental railroad spans U.S.
1004 Gondolas first appear in Venice.	1170 London Bridge is built.	1441 Portuguese explorers start slave trade.	1620 Mayflower lands at Plymouth Rock.	1700 Lewis and Clark explore America West.	1800 Practical steam-powered engine appears.	1869 Public rides first escalator.
1690-1730 Pirates terrorize the seas between 1690 and 1730. One of the most notorious pirates is Edward Teach, known as "Blackbeard." The fictional Captain Hook first appears in the 1904 play "Peter Pan" which inspires books, musicals and films throughout the century.	1770 Birchbark canoes provide transportation for many Native Americans. The canoes are made with a light wood frame covered with pieces of bark sewn together and made watertight with melted pitch.	1780 The first practical wheelchairs provide new mobility for those unable to walk. Early models of wheelchairs have three wheels and hand cranks to propel the chair forward.	1790 France's Montgolfier brothers launch the first hot-air balloon. Filled with smoke, the silk balloon rises to 6,000 feet. Later that year, the first passengers go aloft—a rooster, a duck and a sheep.	1800 Submarines are first used in battle during the Revolutionary War.	1830 Stagecoaches offer public passenger service, and covering 15 miles a day is considered a good speed. 1770 During the Revolutionary War, a submarine is used in battle for the first time. Built by American David Bushnell, the one-person vessel is powered by a hand-cranked propeller. Twentieth-century submarines are complex, nuclear-powered craft used for defense and scientific purposes.

1783 France's Montgolfier brothers launch the first hot-air balloon. Filled with smoke, the silk balloon rises to 6,000 feet. Later that year, the first passengers go aloft—a rooster, a duck and a sheep.

1825 Travel by rail revolutionizes land transportation. British engineer Richard Trevithick invents the first steam locomotive in 1804, but it is 1825 before railroads haul passengers.

Bettmann/Corbis

1804 Humans achieve powered flight. The first flight of Wilbur and Orville Wright's *Flyer* lasts 12 seconds and carries Orville to a height of 10 feet above the beach at Kitty Hawk, N.C.

Subways provide a new way to get around in ever-more-crowded cities. The world's first underground railway opens in London in 1863. By 1904, New York City inaugurates its first rapid-transit subways.

1903 Henry Ford's moving assembly line makes cars affordable to the masses. Ford produces the first Model T in 1908. In 1964, the sporty Ford Mustang rolls out at \$2,368 and sets an all-time record for first-year sales of a new model.

1813 First drive-in gas station opens.	1871 Hindenburg flies 2,000 miles nonstop over Atlantic.	1885 Hindenburg airship crashes.	1901 Bessie Coleman orbits Earth.	1970 Supersonic passenger flight begins.	1983 <i>Pioneer 10</i> spacecraft leaves solar system.	1997 <ipathfinder< i=""> and <i i="" sojourner<=""> explore Mars.</i></ipathfinder<>	2000
1914 Cleveland, Ohio, becomes traffic lights.	1923 Pneumatic meters appear.	1930 Jet airline passenger service begins.	1975 McDonald's starts drive-through service.	1981 NASA develops space shuttle.	1994 "Channel" links U.K. to France.	1998 First 100-mile circular plate meeting.	

1912 On her maiden voyage, the great steam passenger ship *Titanic*, thought to be unsinkable, goes down after hitting an iceberg in the North Atlantic. Of the more than 2,200 persons aboard the ship, about 1,500 perish.

1954 Freeways change the nature and pace of travel in America. In 1956, President Eisenhower authorizes construction of the Interstate Highway System. By the 1990s, this nationwide network includes more than 42,500 miles of highways.

1969 Man walks on the moon. Apollo 11 astronauts Neil Armstrong and Buzz Aldrin plant the American flag 238,000 miles from Earth as an estimated 600 million people on Earth watch on television.

1955 First built in 1903, the Harley-Davidson becomes America's best-known motorcycle in the 1950s. Raw power and a distinctive rumble appeal to rebels of the 1950s and 1960s and to business executives of the 1990s.

2000

1998 Orbital construction of the International Space Station (ISS) begins in 1998 when space shuttle *Endeavor* crew members connect the station's first two sections. ISS is to become the largest cooperative space mission in history.

Food

As the millennium begins, European peasant food is plain and often scarce. Feasting on meat is reserved for the wealthy. Table manners include only a knife; most people just eat with their hands. Slabs of dense bread, called trenchers, serve as plates.

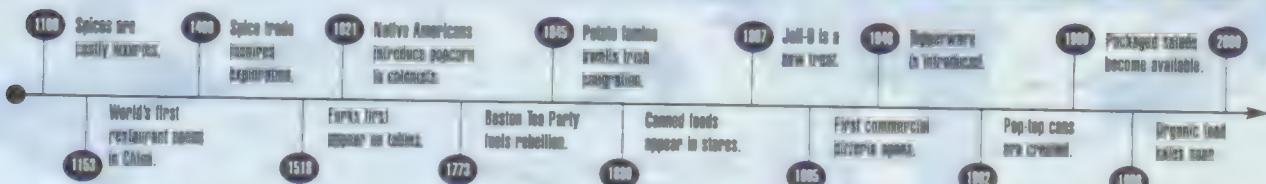

1520 chocolate from the New World takes Europe by storm. Brought to Spain from Mexico, cacao is so costly that it is used as a drink. It is made into a drink for use as a drink. Natives of Mexico have prized chocolate since ancient times.

1650 It is the first coffeehouse opens in England. By 1700, there are 1,000 coffeehouses in London alone. Early coffeehouses are important places to transact business. Lloyd's Coffeehouse evolves into Lloyd's of London, the giant insurance brokerage.

1762 John Montagu, 4th Earl of Sandwich, instructs his servants to bring him his meat between two pieces of bread. This way he can eat with one hand while continuing to play cards with the other. The term "sandwich" is born.

1940 Domestic ice chests provide early refrigeration. Blocks of ice are cut, delivered to homes and sold for use in kitchen ice chests. It is the early 1930s before reliable electric home refrigerators are in common use.

1954 Swanson creates the TV dinner, sold in boxes designed to look like television sets. Frozen dinners are possible because of Clarence Birdseye's 1929 invention of early methods for freezing food.

1878 Alexander Campbell, Brooklyn, is the first to deliver milk in glass bottles. For many years the neighborhood milkman is the most common way to obtain fresh milk, before the age of supermarkets.

1932 America's first large self-service supermarket opens, followed by the invention of the grocery shopping cart in 1937. During the Depression, supermarkets become a significant part of the food distribution network.

1950 Choices expand in school lunch programs. A growing number of public schools begin featuring national fast-food outlets and soft drink brands in the school lunchroom.

1960 Choices expand in school lunch programs. A growing number of public schools begin featuring national fast-food outlets and soft drink brands in the school lunchroom.

Sports and Games

1100 Archery competition is a common pastime in the Middle Ages. Archery skill is so important that English kings ban football because it takes men away from archery practice.

1377 Europeans use engraved wooden blocks to print playing cards, one of the first uses of printing in Europe. Playing cards come to Europe from the Middle East during the Crusades.

1999 Soccer is first played in America, using a sheep's bladder as a ball. As the millennium closes, millions of American youth play in organized soccer leagues. In 1999, the U.S. women's soccer team wins the World Cup.

1552 Golf is a popular sport in Scotland. In 1552, Saint Andrews is a favorite place for golfing. Mary, Queen of Scots is reportedly the first woman golfer and helps spread golf's popularity in Europe.

1839 Baseball is first played as an organized sport at Hoboken, N.J., when the New York Club defeats the Knickerbocker Baseball Club on June 19. More than 100 years later, Jackie Robinson breaks the color barrier in major league baseball in 1947.

1935 Parker Brothers introduces Monopoly, which becomes one of the world's most successful board games. By the late 1990s, the popular game is available on interactive CD.

1959 Game shows become widely popular TV fare in the 1950s. One of the top 10 shows of 1959, NBC's "The Price Is Right," still draws large audiences in 1999 on CBS, where it is the longest-running game show in television history.

1998 Athens, Greece, hosts the first modern Olympics. Winter Games are not held until 1924. At the 1998 Winter Olympics, American figure skaters Tara Lipinski and Michelle Kwan win the gold and silver medals respectively, and China's Lu Chen wins the bronze.

1996 Michael Jordan, considered by many to be basketball's greatest player, retires from the NBA. His talents lead the Chicago Bulls to six NBA championships in the 1990s.

Communication

Literacy is reserved for the clergy and a few students. Monks and scribes laboriously copy books by hand using goose-quill pens. Books are such rare treasures that in some libraries they are chained to the shelf.

Sign language is a means of communication for some early cultures. It bridges language differences between societies and eventually evolves into a formal alphabet for communication by the hearing impaired.

1592 William Shakespeare's "Romeo and Juliet" is first performed. London's Globe Theater opens in 1599, where many of his plays are staged. By 1600, the great playwright pens at least 20 plays.

1450 Johann Gutenberg invents a way to mass-produce the written word. He devises the first Western movable-type system and a new kind of printing press. Gutenberg's inventions speed the spread of knowledge and literacy.

1000 Most Europeans are illiterate.	1034 Chinese invent first movable type.	1202 Europe expands use of Arabic numerals.	1405 Printed music appears.	1503 Leonardo da Vinci paints <i>Mona Lisa</i> .	1670 Clockmaker designs first minute hand.	1776 Declaration of Independence creates U.S.
1000 Japanese woman writes the first novel.	1100 Some societies use smoke signals.	1307 Chaucer pens <i>Canterbury Tales</i> .	1500 Lead pencils make writing easier.	1647 British Navy originates signal flag messages.	1704 Mozart composes symphony at age eight.	1838 Braille develops reading system for the blind.

1000 The first regularly printed newspaper is a four-page weekly publication, the *Relation*, printed in Germany. It is 1702 before the first daily newspaper appears, *The Daily Courant of London*.

1838 Instant long distance communication is possible. Samuel Morse invents the telegraph and a dot-dash code to carry messages over a wire. In 1851, Hiram Sibley founds Western Union Telegraph Company.

1826 Frenchman Nicéphore Niépce creates the first permanent photograph. His partner, Louis Daguerre, carries Niépce's work further by inventing a process of capturing images on metal plates.

1775 One if by land, two if by sea. Lanterns signal the advance of British troops, and Paul Revere rides to warn American colonists of the attack. His famous ride also signals the beginning of the American Revolution.

1867 American Christopher Sholes invents the typewriter. To keep rapid typists from jamming the keys, Sholes designs the keyboard so that frequently combined letters are located far apart. This layout lasts into the computer age.

110000

Fashion

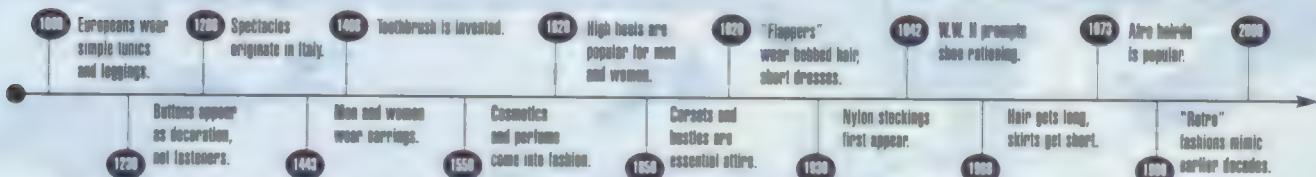

1100 Medieval knights wear a short wool tunic and a coat of chain mail. Gauntlets (heavy leather gloves) and sword complete the attire, which is so costly only wealthy men can afford to be knights.

121
Crossaders return from the Middle East with new ideas, including that of the glass mirror. In 1278, the glass mirror is produced in Venice, Italy, and Europeans see themselves clearly for the first time.

Medieval men's shoes have long, pointed toes. Individuals of higher social status are allowed to have longer points on their shoes, some as long as 18 inches. Moss stuffed into the toe maintains its shape.

1670 Men and women wear elaborate powdered wigs made of human hair, horsehair and goat hair. Because the large wigs are heavy and hot, some people shave their heads and wear a cloth cap under the wig to absorb perspiration

1968 With flowers in their hair and everywhere, hippies express their philosophy of world peace and love. Hippies favor bell-bottom jeans, granny dresses, bare feet, long hair, beads, headbands and bright colors.

 The Industrial Revolution brings mass-produced textiles, standard clothing sizes and the first ready-to-wear garments. In 1851, Isaac Singer invents the home-use sewing machine.

Indoor malls are popular with teens not only for shopping, but also for socializing. The first enclosed mall is built in 1956. In 1992, the Mall of America, the largest mall in the U.S., opens in Minnesota.

# Science Club

“ The Science Club is striving to participate in all facets of science. The club partnered with the horticulture class to improve the Sanger High School landscape. These lines of beautification will continue in April 2000 with the "Sanger Clean-Up." Educational field trips to the Fort Worth Science Museum/Omni Theater were such fun. We are planning more field trips in the near future. I have truly enjoyed sponsoring this wonderful group of kids!

**PAL I**

This is the first year to have two separate groups of PAL helpers. This is also my first year as a PAL sponsor. I have enjoyed myself tremendously! The students love going out to the other schools and spending time with the other students in the Sanger School District. They are very fun loving and do a great job.

Mrs. Miller

## PAL II

The second year students learn the skills, that will make a positive difference at SHS & the other four schools in Sanger I.S.D., the community, & their own lives.

Thirty-five, PALs made a difference in over 200 lives this year! We welcomed Mrs. Cassie Miller as a PAL teacher & divided our PAL I & II classes to reach more students.

### Beauty Secrets

*For attractive lips, speak words of kindness.  
For lovely eyes, seek out the good in people.  
For a slim figure, share your food with the hungry.  
For beautiful hair, let a child run their fingers through it once a day.  
For poise, walk with the knowledge that you never walk alone.*

**Candice Farmer**

We give you a tradition of the future. The tender loving care of human beings will never become obsolete. People even more than things, have to be restored, renewed, revived, reclaimed, and redeemed. Never throw anyone away.

Remember, if you ever need a helping hand, you'll find one at the end of your arm. You have two hands - one for helping yourself and the second for helping others. You have great days ahead of you.

*We Love You,  
Mom, Chauntae, & Brandon*

On January 30, 1982, after 12 years -  
God blessed us with a precious  
daughter - You.

For 18 years with pride and happiness we've watched you grow and shared many memories - now

another  
large step  
in your life -  
Graduation.  
Where's the  
time gone?

There's not enough space or words to express how we feel but I think you know! Keep your faith, be happy and let it show and always follow your dreams - you'll go far.

"You've only just begun" - go Girl!
